Ventilator Submission Form

Use this form to have your companies ventilator approved for use with the PowerTech Ventilator Power Center.

To have your company products certified, please fill out this form.
Please give us all of your contact information: (Please Note: All Fields Required)

Company Name	
General Contact Person	
Title / Position	
Technical Contact Person (s)	
Engineering Department (We need to speak with your engineering department This Information is critical for you to be certified)	
Company Name	
Phone Number	
Fax	
Email Address	
Specific Name and Model Number of the Ventilator to be approved	

After submitting your company information above. A Richardson Products Engineer will contact the Technical Contact Person. After conducting a short phone interview you will be asked to provide a working model of the ventilator you wish to have approved for use with the PowerTech Ventilator Power Center. You may be asked to furnish various power cords and cabling. It usually takes about 4-6 weeks for our laboratory to finish testing your ventilator for compatibility with the power center. All working demo ventilators will be returned upon completion of lab tests. If you have any questions please contact us. We will be happy to answer any of your questions.
